3. Future Goals-

Our goal is to develop the institution into a centre of excellence where quality education, skill development, and research converge. For this, we are committed to resource enhancement in the library and increasing the number of books to make reading and teaching more effective. Additional building construction and upgradation to meet the needs of the student population is our infrastructural priority.

Under academic expansion, keeping local requirements in view, employment-oriented short-term skill-based courses will be added. Along with this, to promote higher education, obtaining postgraduate affiliation and starting the operation of Postgraduate (PG) classes will be initiated. The institution will lay special emphasis on research, innovation, industry partnership, and vocational courses to give a practical form to academic knowledge, so that students can directly connect with employment.

Policies of good governance and autonomy will be adopted for the efficient management of the institution, making the decision-making process swift and transparent. Throughout this development process, inclusive policies to extend education to every section of society will be our core foundation. This holistic vision will make our institution a self-reliant, modern, and leading organization contributing to nation-building.
