VOCATIONALIZATION OF EDUCATION

INTEGRATION OF SKILL ORIENTED SUBJECTS IN BACHELOR DEGREE PROGRAMMES

PLACE OF IMPLEMENTATION: JHANSI

IMPLEMENTATION AGENCY: GOVT DEGREE COLLEGE,SAMTHAR

SECTOR: JHANSI HIGHER EDUCATION DEPARTMENT

YEAR OF LAUNCH: 2020-21

BACKGROUND: Since independence we have been following the British model of education system which provides knowledge and only theoretical learning ,but time has changed.The modern time of globalization and technology has put up many challenges before the present generation for survival.There is need to desert traditional education system which is insufficient to make students cope with the requirements of changing time and scenario.A number of youths are mere degree holders;they lack in skill or vocational aptitude for job.The traditional education system does not develop entrepreneurship,vocational aptitude,leadership,confidence,and creativity.The growing problem of unemployment has led them to depression and the several cases of suicides are evidence to it.There is need to make education job oriented.

INTERVENTION: For the purpose of making modern young generation self dependent,skill oriented and trained higher education department has introduced vocational subjects in graduation programmes through the implementation of NEP 2020.There are a number of courses like Desktop Printing,tally, Salesmanship,Food Processing, Tour Guide,software development and Multimedia which are training students in vocational skills.Besides the offline mode, there are several online platforms to access these skill oriented courses such as Swayam and Vidyabridge.The higher institutes are doing MOUs with ITI and companies to provide skill courses to students at a low cost.

IMPACT: The skill embedded courses will enhance the employability of students and make their future prospects bright.It will instil confidence in them and improve their performance and make learning more secure and interesting.

KEY OUTCOME:

- 1.vocationalization of education will enhance employability.
- 2.It will improve their performance.
- 3.It will make them capable to cope with the changing modern needs and challenges.

It will make them competent and perfect.

KEY TAKEAWAY:

Vocationalization of education is very important to make students economically independent and to make them job giver instead of job seeker.

SUMMARY:

Education and its objectives have been defined by many educationists from time to time and many of them have agreed that education should make students capable of facing challenges of life and ensure their all round development;it should ensure their economic independence.In the fast changing scenario, employability of education is must .So integration of minor subjects as vocational subjects in the graduation courses has proved to be a milestone.

BEST PRACTICE

CORRUPTION FREE INSTITUTION

The college has a clear image with respect to corruption. All the activities and works of students are conducted without any facilitation fees. The students only pay the government determined fees. There has been clear instruction on the notice board regarding strict action against corruption.Students are motivated to take admission on account of the corruption free education.
